

Dave Ellis will be in Port Angeles, WA
July 18 thru 21, 2025

Seeking Lightness
on the Ground and in the Saddle

Dave Ellis, a Parelli 6 Star Professional, has been riding with Pat since the beginning of **Natural Horsemanship**. While many of us worked our way through our introduction to Natural Horsemanship, we often gave little thought to the amount of pressure we needed to accomplish our goals.

Throughout this clinic Dave will be setting up various patterns and obstacles that will help you to realize that our horse can **feel a fly** and if we can emulate that **lightness**, our horse can be light as a feather.

Many of us pay close attention to our rein management when we are learning. As we become more comfortable with our horsemanship I'll often see folks becoming comfortable with the feel that was necessary to get to where they are.

It doesn't have to stay that way !!
