

Dave Ellis

in Port Angeles, WA

July 14 thru 18, 2021

Two Great Subjects

<-><-><-><-><-><-><-><-><-><->

The first 2 days we'll look at **Cowboy Dressage** as an extension of Parelli Natural Horsemanship's "Refinement".

Dave's collaboration with Cowboy Dressage founder Eitan Beth-Halachmy, will bring his years of experience to Washington with Eitan's vision that **Cowboy Dressage** is a western discipline that is **enhanced** by dressage, not ruled by it. Every year Dave & Eitan host a **Cowboy Dressage Retreat** at Dave's LS Ranch in California. Dave then uses Eitan's great information to ride in events as his schedule permits.

This is your chance to take advantage of Dave's learning from Eitan and enjoy this great sport that is sweeping the world.

<-><-><-><->

The final 3 days will be devoted to applying the skills that Pat Parelli has shared with Dave towards a fun and exciting specialization known as **Natural Horse Versatility**.

We'll take an earnest look at the Parelli elements necessary to complete the Versatile Horse tasks. Everyone will have time with Dave covering and practicing all of the skills that will come into play with this really fun horse sport and that will be used on the final day.

Sunday the 18th will be the Big Time (just for fun) **Parelli Natural Versatile Horse Competition**. Dave has hosted over 20 of these events to date and folks just love them.

<->These 4 elements of versatility will be explored <->

<-> **Versatile Riding:** Here we walk, trot, or (optional) lope at designated markers

<-> **Versatile Trail:** We encounter various trail obstacles like bridges, logs, gates, etc

<-> **Versatile Working horse (no cattle):** Here we trot or optional lope a set pattern.

<-> **Versatile Ranch Horse (with cattle):** A cow is sorted out; then you move her around demonstrating control. (Just one little cow)

If you're comfortable walking, trotting, and cantering a very short distance, you'll have a great time at this event
