

Dave Ellis will be in Port Angeles, WA
July 26 thru 29, 2024
examining the values of Rein Management
with Two Riding Styles
FREESTYLE & CONCENTRATED

Dave Ellis is a Parelli 6 Star Professional and was riding with Pat at the very beginning of the phenomenon called **Natural Horsemanship** 40 years ago. Dave was privy to Pat's reasons for clearly separating each style of rein management and the resulting values of each.

Throughout these four days Dave will be setting up various patterns and obstacles that will clearly help you to realize what your horse needs from you **with your hands** to best negotiate each pattern and to be able to work their way through them as a partner.

Many of us pay close attention to our rein management when we are learning. As we become more comfortable with our horsemanship I'll often see folks holding a refined rein loose believing that they're riding Freestyle. Conversely they may be riding with one hand believing that they are Freestyle when, in fact, they are presenting a feel to their horse that is Refined.

Each mean something different to the horse.

This 4 day clinic will present multiple challenges that can be **best for the horse** addressed with different rein positions and styles. We will look at rein management from Snaffle through Hackamore on into Bridle. Bring to the clinic what you are most comfortable with or would like to learn most about.
